SUMMARY

I'm Rehan, your friendly neighborhood ambivert. Picture me as a chameleon of social interactions: introvert with introvert pals, and an extrovert among the lively crowd.

Now, let's talk about my gym adventures. Yes, I might be a bit on the skinny side, but you'll find me pumping iron and pretending I'm the Hulk. It's all about the journey, right? :D

As an undergraduate at PAF KIET UNIVERSITY , I'm diving deep into the world of computer science. But here's the plot twist: when I'm not coding, you'll often find me behind the lens, capturing moments in wedding, corporate, model, and even bigfoot-gathering parties! I'm a part-time photographer who loves to freeze time in pixels.

But that's not all! I'm on a quest to become a full-stack developer. My dream? To score internships at tech giants like Microsoft and Google, and eventually land a job there as a full-stack or front-end engineer. Watch out, Silicon Valley!

But that's not all! I'm on a quest to become a full-stack developer. My dream? To score internships at tech giants like Microsoft and Google, and eventually land a job there as a full-stack or front-end engineer. Watch out, Silicon Valley!

So, that's me in a nutshell – Rehan, the ambivert gym enthusiast, part-time photographer, aspiring tech titan, and a dreamer ready to explore the world. Let's connect and make some memories, or maybe even some lines of code!

EXPERIENCE

Front End developer
Fiverr   **November 2023- Present**
- I am doing freelancing on fiverr
- where I sell front end web development services
- I have level 1 badge on fiverr
- I have very good rating and reviews there
